ABOUT THE EVENT

Additive Technology Day is about the present and future of 3D manufacturing. The event will showcase the fastest developing 3D manufacturing technologies on the market, with a special focus on applications as well as case studies.

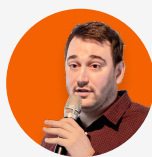

AMD SPEAKERS

Guillaume Painsecq

Business Develop. Manager
Raise 3D (FRA)

Gergely Dávid

Quality Assurance Engineer
Formlabs (HUN)

Michal Vyplasil

Channel Manager
RangeVision (CZ)

On Focus:

#FDM #SLA #LFS #SLS

#High-temp-polimer #Composite

#3D-scanning #Bioprinting

Concept

Additive Technology Day aims at showcasing the present and future of FDM/FFF, SLA/LFS and SLS technologies.

Our mission is to create an event where, along with and complementing the industry's leading technologies, specialized areas such as **heat-resistant polymers, composite printing, 3D scanning and bioprinting** will also be showcased.

Additive Technology Day will also provide useful information on specialized applications of additive technologies, with a particular focus on the automotive, machinery and components manufacturing, plastics, medical, metalworking and energy industries.

The event is open to all those in the SME or industrial sector who have a technical interest and actively use or plan to use 3D technologies.

EVENT MARKETING MATRIALS

- 01 Company booth logo
- 02 Displays
- 03 Specification tables
- 04 Pop-up walls

REVIEWS

Elena Sánchez

Director International Business Development
PICASO 3D

Thank you very much! The organisation is at the highest level. Lots of very interesting meetings! Attendance was through to the end! This is a rare occurrence at an event like this. This means that the programme was very interesting. I wish you good sales! And organise more similar events. You are doing even better than many large exhibitions!"

Michal Vyplašil

Regional Sales Manager
CREAFORM

The show must go on! We are proud that we had another chance to meet you personally and bring RangeVision 3D scanners to great Additive Technology Day in Budapest organized by our long-term partners 3Dee.

EXHIBITORS

formlabs 

SLA - Form 3, Form Wash+Cure

 **RAISE3D**

FDM - Raise E2, Pro2, Pro2 Plus

 **anisoprint**

SLA - Form 3, Form Wash+Cure

 **SINTERIT**

SLS - Lisa PRO & Power
handling station

INTAMSYS

FDM (High temp) - Funmat
PRO 410, Funmat HT

PICASO

FDM (Composite) - Designer XL
PRO,
